### ***St Dominick Sewing Group***

A New Year and a new start for a dressmaking and/or alterations sewing group here in St Dominick. We decided to meet in the Chapel Sunday school room as it is a lovely room. We had our first meetings Wednesday and Friday mornings and all went well. On Wednesday 6 of us braved the cold and had a constructive morning fuelled with hot drinks and biscuits....our fairy godmother came and made drinks for us all and washed up which was brilliant, thank you Lynne it was much appreciated.... Helen made a sweatshirt from start to finish. Sue made alterations to a much loved skirt. Chris worked on a pinafore in corduroy and Gill was tackling the collar of a silk blouse....Kate was putting a waistband on a pair of trousers and Marlene cut out her first ever pattern pieces to make a t-shirt. On Friday notwithstanding the power cut the night before due to Storm Goretti 4 of us had a very successful morning. Linda's overlocker needed some attention so after 2 of us tried in vain we called for an Engineer who promptly came and fixed it ( thank you Bob). In amongst the sewing there was time to chat and look at patterns that Chris and Gill had brought. The idea of this sewing

group is to help each other out by sharing our knowledge and having a laugh along the way. Should you wish to join us please contact Kate Carter or just turn up at the Methodist Chapel on either Wednesday or Friday or both from 10:00 to 13:00. The basic requirements to start with will be your own sewing machine, fabric and cottons.

## ***DRIP DRIP TAMAR: Forward Together with a Peoples' Assembly***

### ***February 27<sup>th</sup> Calstock Village Hall***

Following a “Peoples’ Assembly” in Calstock a year ago, participants decided to form an environmental group that would explore the condition of the river Tamar. As a consequence, Drip Drip Tamar was

born. We are a group of local people who are concerned about the health of the river.

One year on, we are ready for phase two. We'd like to extend our attention to other villages along the Tamar. Our next Peoples' Assembly will be on 27th February at Calstock Village Hall. We hope you can come. Our newly created website [[dripdriptamar.org](http://dripdriptamar.org)] will give you all the information you will need about our findings, work so far, and links to the current river conditions.

## One Year on for Drip Drip

Back in December '24, we asked our community to help us raise the funds needed to sample and test the River Tamar as it flows through our parish. The response was remarkable. Our supporters raised enough to keep the project going for well over a year, and since then we have carried out almost 50 professional lab tests (with another 10 or more to come). In terms of bacterial pollution, we now have a clearer and more evidence-based understanding of the river than ever before. The picture is a mixed one: at times the Tamar is truly excellent, while at others the results can be truly awful. What we can now do, with increasing confidence, is recognise the conditions when the river is likely to be safe and when it may pose a risk to human health.

We began by focusing on bacterial contamination linked to sewage discharges and agricultural run-off. And while no one wants to swim, paddle or row in untreated sewage, we have also come to see these bacterial spikes as indicators of something bigger—a warning that much more than bacteria is entering the river. Even moderate rainfall brings with it a cocktail of substances: pharmaceuticals, PFAS “forever chemicals,” hormones, industrial and household chemicals, road run-off and more. With each rainfall event, South West Water discharges this untreated mixture into the river via storm overflows (CSO's) whenever their treatment works cannot cope. Even wastewater that passes

through the works still contains most of these chemicals, as there is no facility to remove them

The Environment Agency has assured us that the bacteria we test for does not threaten the river's ecology, but we know it is not always safe for people using the water—and the longer-term effects of the additional chemicals remain largely unknown.

So, where do we go from here? We want the community to help us decide. Drip Drip began with a People's Assembly, and we believe that collective decision-making remains the best way to set priorities for 2026. We will be holding our next Peoples Assembly on 27th February at Calstock Hall, and we invite anyone who cares for the River Tamar to join us and help shape the next stage of our work.

Finally, a heartfelt thank you to everyone who has supported us this year with time, observations, donations and encouragement. To contact us, follow our progress, see results and stay informed, please visit our website [dripdriptamar.org](http://dripdriptamar.org) and our Facebook page.

## **CHURCH HALL FOR HIRE**

**St Dominick Methodist Church**

**Suitable for:**

- Committee Meetings,
- Talks and social events (no alcohol)
- Children's groups
- Dance, music, and drama rehearsals

Main hall, kitchen, servery  
accessible toilets

Contact Betty Behennah 01579-350318

There is a serious side to all this – it is raising awareness and funds for The Children's Society who work with disadvantaged children all year through.

This service was followed, on Christmas morning, by a family service of Holy Communion for the whole Tamar Valley Benefice. This was well attended by people from the different churches, and used a mixed media approach, using both our screens showing video carols and traditional organ and hymn books, to good effect.

Look out for the regular services in your Parish Church at 10am on the second and the fourth of the month - and come and join us.

### ***Saltash Red Bus serving St Dominick.***

Saltash Red Bus has offered to trial a bus from St Dominick on Thursdays to a supermarket every week starting in February '26.

They propose a service to Waitrose every other week. On the alternative week they propose a supermarket in Plymouth, of our choice.

The buses are mostly 15-seaters and we had eight villagers interested in using a bus to Waitrose last Autumn. Hopefully more will come forward. The cost is usually £3 return. You would be there for 90 minutes, so long enough to visit the cafe too. We haven't agreed timings yet, it won't be very early or very late.

This is a trial service, so the more people who use it the more likely it is to become a regular service. Please consider using the bus if you do drive or it might not be there when you can't.

Would you try the first buses on 5<sup>th</sup> February or 12<sup>th</sup> February? The date of the first trip depends on the number of passengers willing to use it.

Would you go to Waitrose? Which other supermarket in Plymouth would you want to go to the following week?

Please let me know - Gill Brown - 07801 534043. Or see me in the Community Shop or leave a message in the diary in the Shop with contact details. Email - [gillian.brown@stdominicpc.org.uk](mailto:gillian.brown@stdominicpc.org.uk)

## **St Dominick WI**

As usual St Dominick WI met on the second Wednesday of the month in the Parish Hall at 7.30pm. The speaker booked for January was formerly a submariner and he spoke about his career in the Royal Navy and as a civilian afterwards. He stated 'Chatham House Rules' apply; what was said in the room stays in the room, and he went on to give one story after another of his experiences as a submariner, which were not all positive. Each year we declare one monthly meeting as an 'open meeting' meaning that men are encouraged to attend. This was our open meeting and four men attended. They thoroughly enjoyed the talk. We also welcomed three visitors from Trematon WI.

Our next meeting is on 11<sup>th</sup> February at 7.30pm in the Parish Hall and the speaker will be from The Story of Emily in St Ive. The following week we will be visiting the attraction again. We love it. New members will always be welcomed, and three new members have joined in the last three months. Why not come along and see we get up to? We're a friendly group and ladies are welcome to attend any of our meetings as a visitor for £5. Any lady is welcome to join our trips out, eg The Story of Emily. We also go for a walk on the third Monday of every month, meet in the Church car park at 10am, you don't need to be a member.

In March we will be celebrating our 80th anniversary, 80 years of the Women's Institute in St Dominick. Please contact [stdominickwi@gmail.com](mailto:stdominickwi@gmail.com) for more information.

## ***Parish Council Meeting December***

The last meeting of 2025, won't we miss them?

Present were three members of the public and one child.

Also, County Councillor Long who was recovering well from illness which everyone was glad to see, even though he had fourteen things to report on. I'll try to remember some of them.

Apologies from Councillor Greene, but she did attend a zoom meeting last week.

We had our new clerk Anne Marie with us, Jim was unable to attend to help as he had hoped but Chairman Cox announced that Jim had sent a brief statement to everyone regarding his departure which was presented to everyone by the Chairman on a scroll of wallpaper.

The planning was brought forward as the child attending had to go to bed. The applicant explained what was happening and the council had visited the site en masse instead of individually, so it was quite straightforward.

(In case anyone is unaware, the first thing to do when you want planning is to speak to your neighbours, and also apply for pre planning advice [neither of which are legally required, just good practice]. You can also ask the parish council for their opinion. When you have applied officially for planning, with or without professional plans, the documents will come to the parish council for their recommendation. Some things they/you might consider is whether it's in keeping with the area, whether the access seems viable, whether any extension is bigger than the original building and whether you are taking anyone's light. It always helps to come to the Parish Council meeting, as often they are unable to pass any opinion due to lack of information – you will be given the opportunity to explain your application in the public participation session at the beginning of the meeting. Things such as services, drains, highways etc are not in their remit).

Andrew Long spoke of the damage to the post which is trying to protect a cottage in the village. This has been run over again. A stronger, taller bollard is needed.

A retrospective request for money for Christmas lights from the Festivities group was agreed but not for the VAT as they were supposed to ask for the money before they spent it, or something like that.

Councillor Wilkins had been down to Dillets footpath to see where the water was coming from/going to where the footpath gets washed out. Whatever the outcome of that investigation, something needs to be done so that intrepid team of Wilkins, Fry and Hughes are to set to work with tools, cement and sub base to remedy the situation. Incidentally, the insurance has been checked and volunteers are covered by council insurance as long as they're not using power tools.

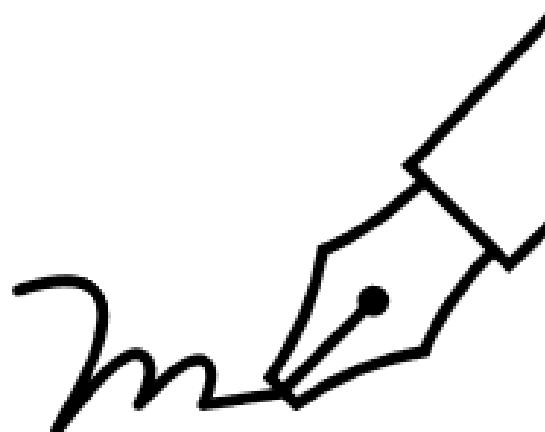

One thing Councillor Long had done was to try to find the potholes reported on Morden Hill, he couldn't find them, nor could the Highways team. Nor had anyone present seen them, it must be the only stretch of road in England without any, and probably some have arrived now.

It was raining hard, the meeting was almost finished and whilst Councillor Fry explained where he had seen a pothole everyone donned their coats and almost left him to it. Poor David. Still, he got away with the playing field weekly inspection rota, January is Councillors Wenmoth and Hunn and February Potter and Wilkins.

And as for the bench repairs  
Councillor Hughes is "on it"

More interesting reports in 2026.

Next meeting Wednesday 4<sup>th</sup>  
February 7.00 Parish Hall.

### ***Chairman's report, St Dominick Parish Hall 2024/5***

We started Christmas decorating the hall with a lovely Christmas tree and wall decorations. The tree was once again kindly donated by Shane Curnow.

In December we welcomed back the Callington Gospel Choir, who once again raised the roof and we all left feeling very joyful and ready for Christmas.

Our Plant Sale in May was very successful. This event really is now a part of the St Dominick calendar of 'must attend' events. Its great where everyone works together, from raising the plants, potting up, ensuring they are delivered and displayed on the day, organising refreshments and making cakes. We have volunteers, apart from the committee, who help us on the day and special thanks go to them too.

The Pasty and Pudding event in October is also very well attended. A firm favourite in the village and a good fund raiser, again with everyone lending a hand to ensure another successful day.

The hall continues to be used often with many organisations holding regular events and also private hires. The income from hire is slightly up this past year and it's great that our parish hall is used as often as it is.

We have purchased two new cookers in the kitchen together with a new fridge.

In Post lockers are in place to the rear of the exterior of the hall. These are being used continuously and add another reason to come to St Dominick. We receive about £1,000 per year and hopefully bring additional customers to our community shop.

We had to bite the bullet and renew the drainage system in the car park the toilets were regularly being blocked and it was found that some of the original drainage pipes had collapsed. It was good to use a local contractor to carry out that work.

Sadly, Norma Chapman passed away leaving a huge gap in our community. She had been the longest serving person on the committee, having been on it since the hall was first built.

Her popularity was evident with the large numbers of mourners attending her funeral. She will be missed by many.

Looking forward to the coming year, we are having acoustic panels placed on the ceiling of the hall. This will ensure a much better sound and we will lose a lot of the echo that we presently have.

We are still looking into shutters for the kitchen hatches and also looking at the hot air system to ensure it is working at its best.

I would like to take this opportunity of thanking the committee for all their help during the past 12 months.

A good team effort ensures that our events and our parish hall is as best as it can possibly be. Thank you. Charmian Saunders, Chair
